

Educational Attainment in Fuller Park

This report provides an overview of historic trends among Chicago Public Schools students from Fuller Park on five milestones along the path to and through college. The data in this report is designed to give community stakeholders actionable information to inform their efforts to propel more students to and through high school and college. While the data shown here can start conversations about how to meaningfully invest in students from Fuller Park, it only begins to tell the full story. Explore in-depth data on high school outcomes and post-secondary experiences in Fuller Park through the [To&Through online tool](#).

Using data to guide school improvement means that the conversation around the data is just as important as the data itself. Using accompanying discussion guides alongside this report and the To&Through online tool can help your community or team socialize foundational knowledge on research-based indicators, form consensus around goals and strategies for improvement, and build an imperative for your collective work supporting equitable outcomes.

The data displayed in this report may differ from data provided directly from CPS. [Read](#) about how we define student groups and calculate rates.

Putting Data in Context

This report focuses on educational outcomes for Chicago Public Schools students from Fuller Park. This data cannot be understood in a vacuum, however. Student attainment data must be analyzed through a critical lens which situates outcomes within the historical, political, and social context of a community. Only then can student data be part of a collaborative dialogue about the inequitable policies, systems, and practices that prevent CPS students, and particularly Black and Brown students, from reaching their academic potential.

Below is a brief snapshot of some metrics about the population of Fuller Park. This data is designed to spur thinking about what historical and contemporary factors in a community sculpt the educational experiences of the young people who live in it as you engage with the data in this report.
