

Educational Attainment in Englewood

This report provides an overview of historic trends among Chicago Public Schools students from Englewood on five milestones along the path to and through college. The data in this report is designed to give community stakeholders actionable information to inform their efforts to propel more students to and through high school and college. While the data shown here can start conversations about how to meaningfully invest in students from Englewood, it only begins to tell the full story. Explore in-depth data on high school outcomes and post-secondary experiences in Englewood through the [To&Through online tool](#).

Using data to guide school improvement means that the conversation around the data is just as important as the data itself. Using accompanying discussion guides alongside this report and the To&Through online tool can help your community or team socialize foundational knowledge on research-based indicators, form consensus around goals and strategies for improvement, and build an imperative for your collective work supporting equitable outcomes.

The data displayed in this report may differ from data provided directly from CPS. [Read](#) about how we define student groups and calculate rates.

Putting Data in Context

This report focuses on educational outcomes for Chicago Public Schools students from Englewood. This data cannot be understood in a vacuum, however. Student attainment data must be analyzed through a critical lens which situates outcomes within the historical, political, and social context of a community. Only then can student data be part of a collaborative dialogue about the inequitable policies, systems, and practices that prevent CPS students, and particularly Black and Brown students, from reaching their academic potential.

Below is a brief snapshot of some metrics about the population of Englewood. This data is designed to spur thinking about what historical and contemporary factors in a community sculpt the educational experiences of the young people who live in it as you engage with the data in this report.

	Englewood	Chicago
Total Population	21,378	2,721,914

College Enrollment in Englewood

55%

of 2023 high school graduates from Englewood enrolled in college in fall of 2023. Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students, and which fits their unique financial, geographic, and cultural needs, are more likely to earn a college degree or credential. College may not be the best path for every student, but due to data limitations, we are not currently able to track outcomes for non-college pathways (for example, military service, trade school, workforce).

Where do high school graduates from Englewood enroll in college?

Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students are more likely to earn a college degree or credential.

Putting Data in Context

- How homogenous or heterogenous are the college enrollment choices of students from Englewood?
- What community-based factors might contribute to students' enrollment decisions?

2023 enrollment of CPS graduates from Englewood by the 5 most commonly attended colleges

	Graduates Enrolled	URM Grad Rate	Institutional Grad Rate	Institution Type
City Colleges of Chicago-Kennedy-King College	15	22%	24%	2 year
Northern Illinois University	13	39%	53%	4 year
City Colleges of Chicago-Malcolm X College	10	18%	19%	2 year
Southern Illinois University-Carbondale	10	31%	49%	4 year
Illinois State University	9	50%	67%	4 year

How have two-year and four-year college enrollment rates for graduates from Englewood changed over time?

College enrollment rates since 2008

Putting Data in Context

- How have college enrollment patterns changed over time for students from Englewood?
- Do these changes align with your expectations? Why or why not?
- How might historical changes in the community relate to trends in college enrollment?

How do enrollment rates for 2-year and 4-year colleges vary by gender from Englewood?

Use Englewood's [college enrollment data](#) to examine differences in post-secondary experiences across genders. What choices are students of different genders making around college enrollment?
