Freshman OnTrack at Hubbard

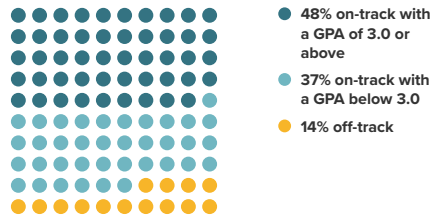

of 2020–2021 first-time freshmen at Hubbard were on-track to graduate from high school in 4 years. Students who are on-track at the end of ninth grade are nearly three times more likely to graduate from high school than students who are off-track. A student is on-track if they fail no more than one semester of a core course and obtain at least 5 credits by the end of freshman year. Additionally, students who obtain a 3.0 GPA or above in high school are more likely to graduate from a four-year college within six years.

What does Freshman OnTrack look like at Hubbard and how does it compare to rates across CPS?

2020–2021 Hubbard Freshmen

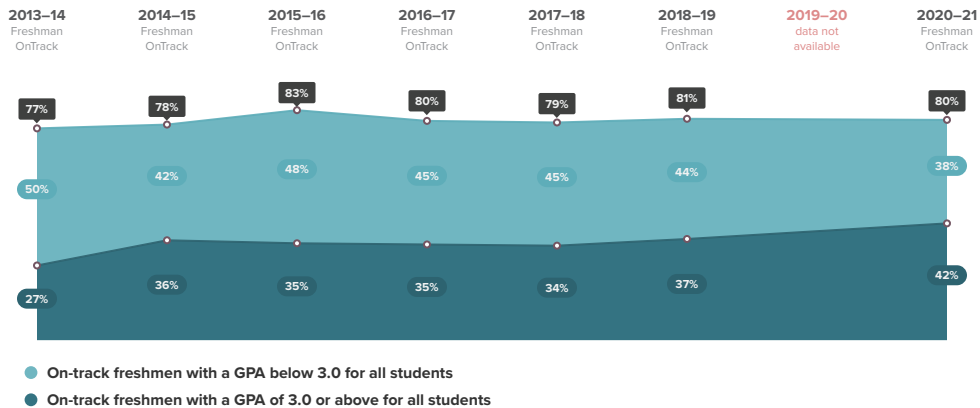

All 2020–2021 CPS Freshmen

How does 8th grade performance relate to 9th grade success at Hubbard?

Freshman OnTrack and 3.0 rates for Hubbard’s first-time freshmen over time

We use a 3.0 GPA (or “Bs or better”) as an early indicator of college readiness, because high school GPA is the best available indicator of college success.

How do Freshman OnTrack rates vary by gender at Hubbard?

Across the city, we see differences in freshman performance for young men and young women. Some of this difference is due to the different ways in which young women and young men experience the transition to high school. Explore [student OnTrack data](#) at Hubbard across genders to reflect on how your school is supporting the academic and social development of students of different genders.

High School Graduation at Hubbard

of 2017–2018 first-time freshmen at Hubbard graduated high school by spring of 2021. Graduating high school with a high level of academic achievement is among the most important markers along the road to college success. Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years. In order to graduate from high school on time, students must obtain a minimum of 24 credits.

How many freshmen at Hubbard graduated from high school and what were the college access levels of those graduates?

2021 Hubbard College Access Level at Graduation

Data not available

Our college access framework breaks students into different groups based on their graduating GPA and ACT scores (or converted SAT scores). Students with selective access are likely to be accepted to selective and very selective four-year colleges, students with somewhat selective access are likely to be accepted to somewhat selective and non-selective four-year colleges, and students with two-year access are likely to be accepted to two-year colleges.

[Explore high school performance data](#) to see how college access changed over time at Hubbard.

How has the high school graduation rate and the proportion of students graduating with a 3.0 or above at Hubbard changed over time?

4-year high school graduation rates since for all freshmen

No data available for prior years.

Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years.

How do High School Graduation rates vary by Freshman OnTrack status at Hubbard?

Explore [high school graduation data](#) to learn how predictive ninth-grade performance is of end-of-high-school outcomes at your school. This information can help school teams identify priority points of intervention for improving students' course performance.

College Enrollment at Hubbard

of 2021 high school graduates from Hubbard enrolled in college in fall of 2021. Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students, and which fits their unique financial, geographic, and cultural needs, are more likely to earn a college degree or credential. College may not be the best path for every student, but due to data limitations, we are not currently able to track outcomes for non-college pathways (for example, military service, trade school, workforce).

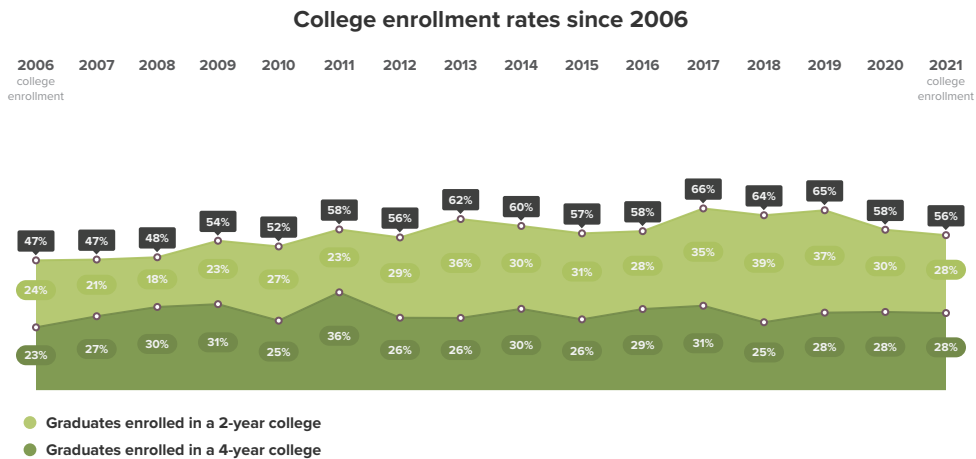

What institutions do Hubbard's college enrollees attend and what are the graduation rates of those institutions?

Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students are more likely to earn a college degree or credential.

2021 enrollment of Hubbard graduates by the 5 most commonly attended colleges

	Graduates Enrolled	URM Grad Rate	Institutional Grad Rate	Institution Type
City Colleges of Chicago-Richard J Daley College	51	24%	33%	2 year
Saint Xavier University	27	42%	52%	4 year
City Colleges of Chicago-Malcolm X College	22	21%	21%	2 year
University of Illinois at Chicago	20	53%	62%	4 year
DePaul University	15	59%	70%	4 year

How have two-year and four-year college enrollment rates for graduates at Hubbard changed over time?

How do enrollment rates for 2-year and 4-year colleges vary by gender at Hubbard?

Use Hubbard's [college enrollment data](#) to examine differences in post-secondary experiences across genders. What choices are students of different genders making around college enrollment?
