## 9th Grade On-Track at Perspectives - Leadership

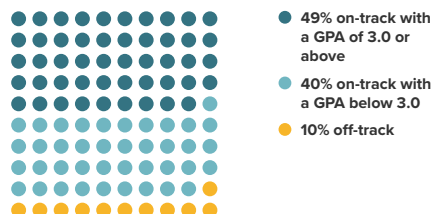

of 2021–2022 first-time 9th graders at Perspectives - Leadership were on-track to graduate from high school in 4 years. Students who are on-track at the end of ninth grade are nearly three times more likely to graduate from high school than students who are off-track. A student is on-track if they earn at least 6.5 total credits by the end of ninth grade, meaning they can fail no more than 1 semester course (including non-core subjects). Additionally, students who obtain a 3.0 GPA or above in high school are more likely to graduate from a four-year college within six years.

### What does 9th Grade On-Track look like at Perspectives - Leadership and how does it compare to rates across CPS?

2021–2022 Perspectives - Leadership 9th Graders

All 2021–2022 CPS 9th Graders

### How does 8th grade performance relate to 9th grade success at Perspectives - Leadership?

9th Grade On-Track and 3.0 rates for Perspectives - Leadership's first-time 9th graders over time

**This graph did not show enough recent data and has been disabled.**

This happens when, in two or more of the most recent five years, data was not available or there were fewer than 10 students in a group.

We use a 3.0 GPA (or “Bs or better”) as an early indicator of college readiness, because high school GPA is the best available indicator of college success.

### How do 9th Grade On-Track rates vary by gender at Perspectives - Leadership?

Across the city, we see differences in ninth-grade performance for young men and young women. Some of this difference is due to the different ways in which young women and young men experience the transition to high school. Explore [student OnTrack data](#) at Perspectives - Leadership across genders to reflect on how your school is supporting the academic and social development of students of different genders.

# High School Graduation at Perspectives - Leadership

of 2018–2019 first-time 9th graders at Perspectives - Leadership graduated high school by spring of 2022. Graduating high school with a high level of academic achievement is among the most important markers along the road to college success. Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years. In order to graduate from high school on time, students must obtain a minimum of 24 credits.

## How many 9th graders at Perspectives - Leadership graduated from high school and what were the college access levels of those graduates?

### 2022 Perspectives - Leadership College Access Level at Graduation

Our college access framework breaks students into different groups based on their graduating GPA and ACT scores (or converted SAT scores). Students with selective access are likely to be accepted to selective and very selective four-year colleges, students with somewhat selective access are likely to be accepted to somewhat selective and non-selective four-year colleges, and students with two-year access are likely to be accepted to two-year colleges.

[Explore high school performance data](#) to see how college access changed over time at Perspectives - Leadership.

## How has the high school graduation rate and the proportion of students graduating with a 3.0 or above at Perspectives - Leadership changed over time?

### 4-year high school graduation rates since for all 9th graders

No data available for prior years.

Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years.

## How do High School Graduation rates vary by 9th grade on-track status at Perspectives - Leadership?

Explore [high school graduation data](#) to learn how predictive ninth-grade performance is of end-of-high-school outcomes at your school. This information can help school teams identify priority points of intervention for improving students' course performance.
