

## Educational Attainment at Social Justice

This report provides an overview of historic trends at Social Justice High School on six milestones along the path to and through college. The data in this report is designed to give school stakeholders actionable information to inform their efforts to propel more students to and through high school and college. While the data shown here can start conversations about how to meaningfully invest in students at Social Justice, it only begins to tell the full story. Explore in-depth data on high school outcomes and post-secondary experiences at Social Justice through the [To&Through online tool](#).

Using data to guide school improvement means that the conversation around the data is just as important as the data itself. Using accompanying discussion guides alongside this report and the To&Through online tool can help your school community socialize foundational knowledge on research-based indicators, form consensus around goals and strategies for improvement, and build an imperative for your collective work supporting student success.

The data displayed in this report may differ from data provided directly from CPS. [Read](#) about how we define student groups and calculate rates.

# 9th Grade Enrollment at Social Justice

first-time 9th graders enrolled in Social Justice in 2021–2022.

## Where do 9th graders at Social Justice live?

Top 5 community areas in which Social Justice’s 2021–2022 9th graders live

| Community Area | Number of 9th Graders | Percentage of 9th Graders |
|----------------|-----------------------|---------------------------|
| South Lawndale | 49                    | 78%                       |
| North Lawndale | 10                    | 16%                       |

*In order to preserve students’ anonymity, only community areas with at least 5 ninth-grade enrollees from Social Justice in are included in this table.*

## How have 8th grade GPA and attendance rates for first-time 9th graders at Social Justice changed over time?

8th Grade GPA and attendance rates for first-time 9th graders since 2013

2013–2014 data not available    2014–2015 data not available    2015–2016 data not available    2016–2017 data not available    2017–2018 data not available    2018–2019 data not available    2019–2020 data not available    2020–2021 data not available    2021–2022 data not available

- Enrollees with missing 8th grade grades and/or attendance data
- Enrollees with Intensive Support status in 8th grade
- Enrollees with Academic Support status in 8th grade
- Enrollees with Attendance Support status in 8th grade
- Enrollees with On Track status in 8th grade

8th grade grades and attendance are the strongest predictors of academic performance in high school.

## How does 8th grade performance relate to 9th grade success at Social Justice?

Explore [8th grade performance data](#) to learn the extent to which 8th grade performance predicts 9th grade outcomes at your school. This information can help school teams identify priority points of intervention for improving students’ course performance.

# 9th Grade On-Track at Social Justice

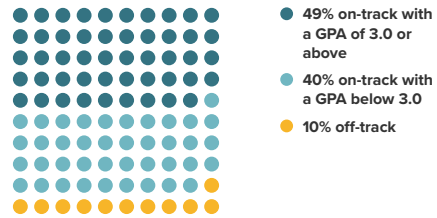

of 2021–2022 first-time 9th graders at Social Justice were on-track to graduate from high school in 4 years. Students who are on-track at the end of ninth grade are nearly three times more likely to graduate from high school than students who are off-track. A student is on-track if they earn at least 6.5 total credits by the end of ninth grade, meaning they can fail no more than 1 semester course (including non-core subjects). Additionally, students who obtain a 3.0 GPA or above in high school are more likely to graduate from a four-year college within six years.

## What does 9th Grade On-Track look like at Social Justice and how does it compare to rates across CPS?

2021–2022 Social Justice 9th Graders

All 2021–2022 CPS 9th Graders

## How does 8th grade performance relate to 9th grade success at Social Justice?

9th Grade On-Track and 3.0 rates for Social Justice’s first-time 9th graders over time

We use a 3.0 GPA (or “Bs or better”) as an early indicator of college readiness, because high school GPA is the best available indicator of college success.

## How do 9th Grade On-Track rates vary by gender at Social Justice?

Across the city, we see differences in ninth-grade performance for young men and young women. Some of this difference is due to the different ways in which young women and young men experience the transition to high school. Explore [student OnTrack data](#) at Social Justice across genders to reflect on how your school is supporting the academic and social development of students of different genders.

## High School Graduation at Social Justice

of 2018–2019 first-time 9th graders at Social Justice graduated high school by spring of 2022. Graduating high school with a high level of academic achievement is among the most important markers along the road to college success. Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years. In order to graduate from high school on time, students must obtain a minimum of 24 credits.

### How many 9th graders at Social Justice graduated from high school and what were the college access levels of those graduates?

Our college access framework breaks students into different groups based on their graduating GPA and ACT scores (or converted SAT scores). Students with selective access are likely to be accepted to selective and very selective four-year colleges, students with somewhat selective access are likely to be accepted to somewhat selective and non-selective four-year colleges, and students with two-year access are likely to be accepted to two-year colleges.

[Explore high school performance data](#) to see how college access changed over time at Social Justice.

### How has the high school graduation rate and the proportion of students graduating with a 3.0 or above at Social Justice changed over time?

#### 4-year high school graduation rates since for all 9th graders

No data available for prior years.

Students who graduate from high school with a GPA of 3.0 or above have at least a 50 percent probability of graduating from a four-year college within six years.

### How do High School Graduation rates vary by 9th grade on-track status at Social Justice?

Explore [high school graduation data](#) to learn how predictive ninth-grade performance is of end-of-high-school outcomes at your school. This information can help school teams identify priority points of intervention for improving students' course performance.

# College Enrollment at Social Justice

of 2022 high school graduates from Social Justice enrolled in college in fall of 2022. Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students, and which fits their unique financial, geographic, and cultural needs, are more likely to earn a college degree or credential. College may not be the best path for every student, but due to data limitations, we are not currently able to track outcomes for non-college pathways (for example, military service, trade school, workforce).

## What institutions do Social Justice's college enrollees attend and what are the graduation rates of those institutions?

Students' choice of college influences their likelihood of earning a college degree. Students who choose a college with a strong track record of graduating its students are more likely to earn a college degree or credential.

### 2022 enrollment of Social Justice graduates by the 5 most commonly attended colleges

|  | Graduates Enrolled | URM Grad Rate | Institutional Grad Rate | Institution Type |
|--|--------------------|---------------|-------------------------|------------------|
| City Colleges of Chicago-Malcolm X College | 14                 | 21%           | 21%                     | 2 year           |
| University of Illinois at Chicago          | 10                 | 53%           | 62%                     | 4 year           |

*In order to preserve students' anonymity, only colleges that enrolled at least 5 students from Social Justice in 2022 are included in this table.*

## How have two-year and four-year college enrollment rates for graduates at Social Justice changed over time?

## How do enrollment rates for 2-year and 4-year colleges vary by gender at Social Justice?

Use Social Justice's [college enrollment data](#) to examine differences in post-secondary experiences across genders. What choices are students of different genders making around college enrollment?
